

Privacy and Cookies Policy

1. Introduction

1.1 This Privacy and Cookies Policy explains how SafeCrypt.io (the “SafeCrypt”, “SafeCrypt.io”, “we”, “us” or “our”) collects information from you when you visit or register to use <https://www.SafeCrypt.io> (the “Website”) and how this information is being used.

1.2 This Privacy and Cookies Policy applies to you whenever you browse and/or use the Website.

1.3 Your personal information required for authentication (such as login name and password) is stored in our database in an encrypted form and shall not be passed and used by any third party.

2. What personal data does SafeCrypt.io collect and use?

2.1 Information collected when you browse the Website.

SafeCrypt does not collect any personal data about you from your browsing of the Website.

2.2 Data collected when you create a personal account on <https://www.SafeCrypt.io> website.

SafeCrypt only collects information that is necessary for us to provide you with the product or service that you have requested. This includes information that you provided while creating an account: e-mail address, password and Ethereum wallet address.

2.3 How SafeCrypt will use any personal data collected?

2.3.1 SafeCrypt will use personal data for administration and authentication purposes only.

2.3.2 Your personal information is stored on a protected web hosting and the SafeCrypt.io database only.

2.3.3 SafeCrypt.io encrypts personal information in order to ensure that your information is protected.

2.3.4 Each time you provide us with any personal information we aim to inform you how we intend to use it and ask you to give your consent to such use. This will include use of that information to send you confirmation letters, important updates information and replies to technical and/or general questions from you to SafeCrypt.io.

2.4 How can I correct, delete, or prevent any use of my personal data?

The information that you used while creating your account cannot be corrected and/or deleted for security reasons. Please, contact SafeCrypt.io technical support to request data removal if necessary.

3. Does SafeCrypt.io use cookies?

3.1 You are not obliged to have cookies turned on to visit most of the Website and can still browse our site anonymously, as cookie does not provide SafeCrypt.io with any personal information.

3.2 SafeCrypt.io does not automatically capture or store personal data from the website visitors, other than to log your IP address and session information such as the duration of the visit to the Website and the web-browser used during the visit. This information is used only for administration purpose.

3.3 Cookies may be necessary to enable you to access and participate in certain areas of the Website. Upon closing your web-browser, such cookies are deactivated. You are able to remove or block any particular cookies at will.

3.4 Most modern web-browsers allow you to modify cookie settings as you see fit. If you wish to disable/enable any particular cookie, please refer to Help section of your web-browser to find more information on how to change cookie settings.

4. How does SafeCrypt.io protect your personal data?

4.1 SafeCrypt will store your personal data using adequate technical security measures and tools and will only keep it for as long as is reasonably necessary to provide you with the product or service that SafeCrypt offers to the user.

4.2 While SafeCrypt uses all reasonable efforts to protect your security, we remind you that data transmission over the Internet may not always be guaranteed as completely secure, and therefore you use the Website at your own risk.

5. Changes to SafeCrypt.io Privacy and Cookies Policy

If SafeCrypt.io makes any changes to this Privacy and Cookies Policy such changes will be reflected on this Policy in order to fully inform you of what data is collected and how it is being collected and used.

6. External links

This Privacy and Cookies Policy applies only to data collected by this Website. The Website may also contain direct links to other websites.

SafeCrypt.io is not responsible for the privacy policies of any other websites, and we advise you to read the privacy policy of any website that collects any personal data.
